Office of Mayor												
Marianne Cerilli		X	X		X		X		X		X	
"The issue is the cumulative effects given the amount used over time and crossed with other chemicals and if this is building resistance in mosquitoes." "Larviciding, natural predators, and public education about precautions are all good. The threat and fear of disease driving public opinion polls must not be how we develop public health policy. Research and comprehensive analysis is."												
Kaj Hasselriis	X		X		X			X	X			X
"As mayor I will enact a pesticide ban for all cosmetic and non-essential purposes. I will also initiate a public education program on alternative pest-control methods."												
Sam Katz					X							
"Fogging adult mosquitoes is a last resort only. I believe it is very important to reduce exposure to all toxics including malathion." "The city is investigating a comprehensive program at a cost of several million dollars to use safer biological measures to kill mosquito larvae to avoid the need for fogging. The city is investigating a ban on non-essential or cosmetic chemicals."
